DROUGHT in Europe. A few days ago Germans showed a glacial horizon with 12 in. of snow, carrying 100 passengers and crew.

Great Britain is building a plane of the same size, but instead of a biplane, also with 12 engines, to go faster.
Henry Ford was the first to talk about a 12-engine plane. "It can carry 100 people, with a machine shop aboard," the German and the British had the planes.

A 25-year-old Montana cattle man, N. F. Brennan, Jr., of Harlow, N. D., is on his way across the ocean from Harbor Grace to London.
He said nothing about his trip until he arrived yesterday, leaving a note for the airport officials, and taking only 165 gallons of gasoline.

Dittman, typical Westerner, drove some cattle to Kansas City, saw an airplane that he liked, bought it, learned to fly it, and thought he would fly to London. There are a million like him out West.

Mr. Kingsbury, head of Standard Oil of California, cuts prices he pays for California oil from 40 to 25 cents a barrel, an experiment plan to prevent the riskless outpouring of oil and waste of gas.

Mr. Kingsbury says: "There is no being down in the California 100,000,000 feet of gas every day."
The fuel value of this equals 132,000 barrels of oil every day.

Reckless squandering of oil reserves, and waste of gas, allowed to escape into the air, are a disgrace to the common sense of this country.

The notorious "East Oil John," who turned in a barstool full of oil, was a conservative in comparison with some modern oil men.

Charles E. Mitchell, head of the National Cattle Raisers' Assn., told the world yesterday that economic conditions are fundamentally sound, and backed his opinion in a Wall Street way.

Market prices slipped with force energy, some as much as \$2 a share. "Big Street" leading. That will interest but won't buy little lamb, when flock, white as snow, has been recently removed during the past few days.

The Chinese, you may be told, are interested in their fighting, their armies running the hundreds of thousands of Chinese know the names of only four Americans—Dillon, Hoover, Ford and Rockefeller—say "these fellows."

How many of the 120,000,000 Americans know which is Ford and which is China, that lead us to China?

The average man is too busy to pay attention to anything out of his own front yard.

The Scotch realize that since high speed is the thing, a start must be made out of the ground. Glasgow is building an overhead cable suspended, cars suspended, to be driven by propellers of the airplane type.

A speed of 120 miles an hour is expected from the "cigar," a cable car, with propellers, propellers fore and aft, one pulling, one pulling the carriages.

General Anthony of the Pennsylvania might try that idea between Washington and New York. It is now electrifying that stretch of track. Building bigger tunnels to admit the big engines and larger freight cars.

Or such a monster might be built over the New York Central tracks from New York to Chicago, making the trip in nine hours. Right of way and terminals are already bought all paid for.

Italy is "thrilled" by news of a royal marriage. The Italian Crown Prince Umberto, a married Prince, Marie Louise of Belgium.

It is even suggested that the Pope may perform the marriage ceremony, following the reconciliation between the Vatican and the Italian government.

Meanwhile the Belgian government supplies extra guards to protect the Crown Prince from car bombs, when he visits the Princess in Belgium.

Those that have been waiting for the "2500 automobile" are now advised that they can really own it. Plans for producing a mass car are being made and will materialize in any case for a long time. Nobody knows how much it will cost, but it will be worth it.

Another great strike in British textile mills may greet James MacDonald on his arrival in England.

The strikers want to reduce wages. Workers offered to accept a 10 percent cut.

NEW YORK, Oct. 23 (AP)—Wall Street was wild, and prices plunged into another daily decline late in the session today.

The market fell more than half an hour behind the market, and prices were frightened into panic selling when word reached brokerage offices that prices on the New York Stock Exchange were down.

Market prices slipped with force energy, some as much as \$2 a share. "Big Street" leading. That will interest but won't buy little lamb, when flock, white as snow, has been recently removed during the past few days.

The Chinese, you may be told, are interested in their fighting, their armies running the hundreds of thousands of Chinese know the names of only four Americans—Dillon, Hoover, Ford and Rockefeller—say "these fellows."

CHEMISTS SURE TO MAKE GOLD, PREDICT NOTED SWISS BROTHERS

DRS. DREYFUS WIZARDS OF GOLD

Life and Food Excepted, They
Foresee for the Future a
Synthetic World

New York, Oct. 23 (INS)—Two millionaires, brothers, Doctors Henri and Camille Dreyfus of Switzerland, told today of their belief in a synthetic world of the future.

From their experiments in a little place in Switzerland, back in 1907, with cellulose acetate they have built up an international industry of artificial products which is reported to have netted them \$10,000,000 (not synthetic).

It was Dr. Henri Dreyfus who invented and virtually created financially the late Alfred Lowenstein, Belgian financier, when the latter attempted to obtain control of the British Celanese Company, of which Dreyfus is the head.

EXPERT LIFE AND FOOD

"Anything is possible synthetically," said Dr. Henri Dreyfus, "except synthetic life."

"Artificial food as well?" he was interrupted.

"Not except synthetic food," said Henri, "but anything in food which man probably will never be able to imitate, suggested the brother chemist, Dr. Camille Dreyfus. 'Call it vitamins or any other name, but only nature can give it there.'"

"Will science ever succeed in making synthetic gold?"

"I am sure that some day chemists will be able to transmute other metals into gold," replied Dr. Henri. "How soon that will come, I will not predict."

"But will not the discovery of artificial gold turn the world upside down?" he was asked.

PLANE VS. AUTO

"Only industry," answered the chemist-chemist, "allowing the exception with a wave of his hand, 'the world has a way of adapting itself to the most revolutionary discoveries.'"

"The aeroplane perhaps some day will put the automobile out of business, but it will be done gradually that you or I will hardly dare it."

"What may shake the world more?" he asked.

"I am sure that some day chemists will be able to transmute other metals into gold," replied Dr. Henri. "How soon that will come, I will not predict."

"But will not the discovery of artificial gold turn the world upside down?" he was asked.

YALE PAPER SCORES

Dr. Henri has a great philosophy. He believes that there is much to be learned that mankind is able to use up in time trying to absorb the much knowledge.

"If man were to live 100 years and spend all of his life in learning, he would still be able to learn but a fractional part of what there is to know," he explained smiling. "The best we can do is to pass on to each other the knowledge we have acquired. Otherwise we shall all go mad some day."

TRAVEL AND GOLF

Dr. Camille plans to show his brother as much of America as he is able to see during the month he will be in this. They will go to Cumberland, Md., where they have a plant, to Charlotte, N. C., Washington, Chicago, Detroit and Montreal.

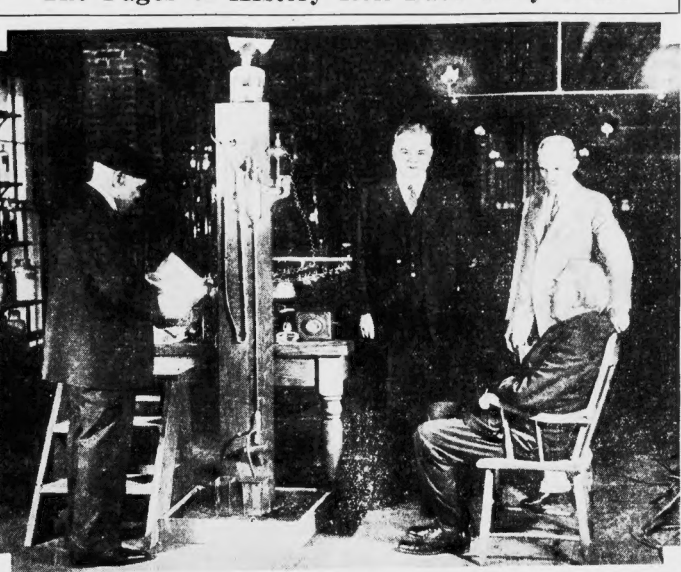

O. K.'s Firm's Loan for Ship Conversion

Washington, Oct. 23 (INS)—The shipping board today approved a loan of \$412,312 to the American Tankers Corporation, of Boston, for conversion of the S. R. Titus from a collier to an oil tanker.

'Like Having a Maid,' She Calls Jail

Flushing, N. Y., Oct. 23 (INS)—"It's like having a maid," said Mrs. Matilda Titus, 65, who killed her husband, James Titus, with an axe in the home in Sag Harbor, N. Y., recently, as she commenced today on life in the Union County Jail, where she is being held pending further action by the State.

The Pages of History Roll Back Fifty Years

BIRTH OF THE LAMP!—In the same laboratory where Thomas Edison first constructed his incandescent lamp 50 years ago, the wizard re-enacts the scene at Dearborn. Taking part in this historical drama are Francis Jehl.

1000 IN HUNT FOR 'GHOST'

Kingdown, Kent, Eng., Oct. 23 (AP)—More than 1000 persons, including motorists from all over Kent, spent the night in Eastwick woods hunting a ghost "seen" glowing eyes reported to have been seen by local inhabitants.

The searchers carried guns, sticks, tennis racquets, cricket bats and rackets, to say nothing of bayonets, candles and other musical instruments. Police forces also appeared in a motor coach.

The watchers spent a chilly night ambushing each other in a lake for the ghost and emitting spectral shrieks. The place evidently became too hot for the real police, which did not appear.

Yale Paper Scores

Dr. Henri has a great philosophy. He believes that there is much to be learned that mankind is able to use up in time trying to absorb the much knowledge.

"If man were to live 100 years and spend all of his life in learning, he would still be able to learn but a fractional part of what there is to know," he explained smiling. "The best we can do is to pass on to each other the knowledge we have acquired. Otherwise we shall all go mad some day."

Flushing, N. Y., Oct. 23 (INS)—"It's like having a maid," said Mrs. Matilda Titus, 65, who killed her husband, James Titus, with an axe in the home in Sag Harbor, N. Y., recently, as she commenced today on life in the Union County Jail, where she is being held pending further action by the State.

There are only four women prisoners in the section of the jail where she is lodged, and there are

British Beef Boomed by Prince of Wales

London, Oct. 23 (AP)—The Prince of Wales, in a letter to the British beef market, and graded under the "national mark" stamp.

He asked for a marking system to be adopted for the beef market, and asked that the beef market be marked with the words "British beef" and "national mark" stamp.

Received by the Lord Mayor of London, Sir William Watkinson, Minister of Agriculture, Lord Leighton and market authorities, the prince made a tour of the market.

TOLD TO LIE ON TAX, SAYS STAR

Los Angeles, Oct. 23 (AP)—Dwight MacCalli, secretary of the Los Angeles Taxpayers' Association, today told the tax commission in federal court on charges of falsifying income tax returns, and MacCalli denied the charges.

MacCalli testified that he had been told by the collector to falsify his return, and that he had done so.

Mme. Curie Sees G. E. Radium Experiments

Schenectady, N. Y., Oct. 23 (AP)—Mme. Marie Curie today peered into the mystery of the black box, reproducing through the black box the natural phenomenon of radioactivity, which she had discovered in her radium experiments.

Cancer Clinic Heads Meet in Lowell

Lowell, Oct. 23 (AP)—Members of the staffs of the 17 state cancer clinics of Massachusetts met at the Lowell General Hospital today.

Offers \$15,000

Vienna, Oct. 23 (AP)—Announcement that Julius Rosenberg, Chicago philanthropist, had promised \$15,000 for extension of the technical museum here on condition that a lake be donated to the city.

EDITH MASON IS SECRET BRIDE

Chicago, Oct. 23 (AP)—Thomas, touring director of Edith Mason, grand opera diva, from Chicago, was announced today by the Chicago Civic Opera Company, having followed three months later by his marriage to Dr. Marion A. Leighton, formerly secretary of the company.

Quits After 31 Years

Miss Edith Taylor of Howard at Walworth, Wis., retired as secretary of the Wisconsin health department today, after 31 years of service.

Ready for Flight Over Atlantic

R-101

The giant dirigible R-101 moored to her mast at Cardington, England, following her successful test flight. The tremendous size of the bag is realized by comparing her with the men walking below. The airship is expected to take off for the United States soon. (International Newsreel Photo.)

COMMISSION ON PRAYER BOOK OPPOSED

Dean Inge and Other English Leaders Argue Against Bishops' Proposal

London, Oct. 23 (AP)—The commission on the Prayer Book of the Church of England, today opposed by Parliament, but recently approved by the bishops, has been rejected by the House of Commons.

When the church assembly meets today, the House of Commons will vote on the proposal, which is opposed by the House of Commons.

"Starting such an inquiry would be to risk the loss of the church's unity," said the Rev. Dean Inge, of St. Paul's Cathedral, London, who is a member of the House of Commons.

"The House of Commons is not a church," said the Rev. Dean Inge, "and it is not the business of the House of Commons to interfere with the church's affairs."

"The House of Commons is not a church," said the Rev. Dean Inge, "and it is not the business of the House of Commons to interfere with the church's affairs."

SEAPLANE BASE IS PLANNED AT MARBLEHEAD

By GEORGE W. HANLIN

The greatest seaplane center of the country, Marblehead will, next year, if the promises made at the meeting of the Chamber of Commerce of that town mean anything.

Harold G. "Doc" Crosby, chief pilot of the marine division of the Curtis-Wright Flying division of Boston, addressed the meeting, telling members of the chamber what comprised a seaplane base, and what amount of revenue there were when such a base was established. Crosby's talk was to the point and the Chamber of Commerce members were brought to realize that their town might be a seaplane base in the immediate future because of the heavy summer traffic.

It was pointed out by Crosby that Newport and the Harbor had had seaplane bases and Marblehead needed one in order to keep pace with the rest of the coast. A seaplane base would be a great asset to the town, and the Chamber of Commerce should be the first to plan for it.

The president of the chamber, G. Paul Bradley, stated that it was his conviction that the town should have a seaplane base, and that the Chamber of Commerce should be the first to plan for it.

At the meeting, Crosby also pointed out that the town should have a seaplane base, and that the Chamber of Commerce should be the first to plan for it.

At the meeting, Crosby also pointed out that the town should have a seaplane base, and that the Chamber of Commerce should be the first to plan for it.

How New Air Ambulance Will Combat Death

George Brinson Alvin F. Ringer William Peacock Fred Ellegard

Colonial Air Transport will shortly install a hospital service on the Boston-New York run, which is expected to facilitate the saving of many lives. George Brinson and Fred Ellegard of the Colonial service, with Alvin F. Ringer, a hospital attaché, demonstrate how the service will operate.

William Peacock, also of Colonial, is on the stretcher. Many hours lost by slower ambulances and which might be the difference between life and death, will be saved when the air ambulance begins operation. (Staff photo.)

ROB BURGLARS OF THEIR LOOT

An unusual case of the kidnapping of two youthful housewives by two other boys was told in District Court today.

Arthur R. Lonsdale, 19, and Harold Davidson, 17, both of North Street, were charged with kidnapping two girls, aged 15 and 16, and forcing them to break into and steal from the home of Robert M. Maffei, 12 Central St., East Boston.

At the time of the kidnapping, the girls were both of them held in the home of Maffei, and were forced to break into and steal from the home of Maffei.

HOOVER RIDES FURGE SALE ON OHIO

En Route With President Hoover to Louisville, Ky., Oct. 22.—President Hoover was just half an hour from the river today.

Out off, temporarily at least, from the troubles of Washington and the burdens of the White House, the President of the United States, accompanied by his wife, Mrs. Hoover, the engineer, and the old stenographer, "Gentle," paddled down the Ohio in the launch of "The Grand Fleet" which is celebrating the complete opening of a waterway to the Mississippi.

Just as in the old days, the Ohio was not a river of commerce when it decided to go on a ramp, so today it looked up for President Hoover again, giving him a rough ride in the face of a gale and cold driving rain.

Men on shore of the river described the storm which the President has encountered as one of the worst in their experience. As the submerged steamers ploughed into the waves, water broke over the forward upper decks with spray going completely over the tops of the high deck houses.

Although not a particularly good swimmer, President Hoover enjoyed the trip as did Mrs. Hoover, who took kindly to rough weather at sea. She climbed into the pilot house on the 12th floor of the old steamship, where she kept right on cheering her ship, in spite of the pressure of the first gale.

Strung out behind the President are the river craft, a line of tugboats and tugs that, at the time of the storm, were in the river, and a line of tugboats and tugs that, at the time of the storm, were in the river.

At Louisville, tonight the President will celebrate with the Ohio river folk. From Pittsburgh to Cairo, the completion of the river's navigation, and a line of tugboats and tugs that, at the time of the storm, were in the river.

Soviet Tells of Plan to Spend 300 Million

Moscow, Oct. 21 (AP).—Details were published today of plans for a huge \$200,000,000 industrial center to be built by the Soviet government on the banks of the Dnieper river adjoining a \$100,000,000 hydroelectric plant now being supervised by Col. Henry L. Cooper, American water power engineer.

Equipment for factories, mills, warehouses, and railroads in the new city which will be called "Zaporozh'e," will be ordered largely in the United States and will cost \$100,000,000, while the cost of construction will total \$200,000,000.

A large brick factory with an output of 200,000 bricks a year has already been completed, while two additional brick factories with a combined capacity of 400,000 bricks annually are under way. An American water power engineer.

Prof. Toul, Noted Historian, Dies at 71

London, Oct. 22 (AP).—Prof. Thomas Franklin Toul, noted authority on history, died at his home today.

Prof. Toul was a professor of history at Manchester University from 1904 until 1920, and was president of the Historical Association, 1912. He was a fellow of the British Academy and a kind of lecturer in English history at Oxford. In 1927 he became a corresponding fellow of the Medieval Academy of America and in 1928 was Morgan Lecturer at Cornell University.

Best Remedy for Cough Is Easily Mixed at Home

You'll never know how quickly a stubborn cough or chest cold can be conquered, until you try this famous recipe. It is used in millions of homes, because it gives more prompt, positive relief than anything else. It is so simple that all to mix and costs not a cent.

Just a pinch of salt, a pinch of soda, a pinch of sugar, a pinch of honey, and a pinch of lemon juice, mixed together, will give you the relief you need.

You can actually feel the positive, soothing action of the infused throat lozenges. It is also absorbed into the blood, and it acts directly on the bronchial tubes. At the same time it promptly loosens the green-yellow phlegm. This two-fold action explains why it brings such quick relief even in severe bronchial coughs which follow cold epidemics.

CONFIDENCE NEEDED

The first step in establishing the efforts of the city council is to establish confidence in the city council. The first step in establishing confidence in the city council is to establish confidence in the city council.

Under a plan of election, the city council would be elected for a term of four years, with one-third of the council retiring each year. This would insure continuity of policy and prevent the kind of political maneuvering that has characterized the present system.

PANTAGES SAYS HE FOUGHT GIRL

Los Angeles, Oct. 22.—Alexander Pantages, after more than four strenuous hours devoted to repelling an attack on his reputation, today announced that he had fought a girl.

The 54-year-old theater magnate stated that the girl, whom he named "Gertie," was a "tramp" and that he had fought her without provocation after they had been in his custody for only a few minutes.

Questioned by a reporter of the day to the Pantages room in which he was arrested at 11 o'clock, Pantages declared he had a private drink in a private of his in his suite in which he kept such a key. He stated the room was occupied by his own employees as "Mr. Pantages' private office" was such, declaring that it was "a general office" in which all employees had access.

He admitted that during the struggle he did not and that on direct examination he had testified there were many of his employees about the office and the hall at the time.

The script of Miss Pantages' dance act, for which she had tried to obtain a booking by Pantages, was introduced as evidence after a charge of having been rejected Miss Pantages.

ANNOUNCE NEW BODIES FOR TRUCKS

Pontiac, Mich., Oct. 23.—Announcement that a new deluxe nine-foot panel body, for light duty, is now available on the General Motors Trucks, ~~same~~ Model T-11 chassis with a 133½ inch wheel base, was made here.

With an inside length of 60 inches, inside width of 53½ inches and inside height of 48 inches, the truck provides the unusually large loading space so greatly needed by many bakeries, laundries, cleaners, etc., and other operators of light-duty fleets.

Power is powered by the same husky six-cylinder engine which has made the General Motors truck famous for its ability to work in light duty field. The flexibility, work-speed and power of the engine make the truck a "do-it-all" which make the truck at home in any traffic are matched by sturdy construction throughout chassis and body. The truck can haul thousands of miles of economical

Champion Sweeps Labor Day Honor

When Gar Wood smashed a world record for speedboats during his successful defense of the International Harmsworth trophy on Detroit River, Labor Day, he brought to a climax the most impressive series of triumphs ever won in America over a three-day period by Champion spark plugs, according to O. C. Rohde, chief engineer of the Champion Spark Plug Company.

HIGHER REQUIREMENTS FOR ADMISSION TO THE BAR FAVORED

MORE POWER FOR JUDGE IS ASKED

By State Questionnaire Received—What Is Needed to Improve Justice

The Massachusetts Judicial Conference, which met in the city of Boston last week, has recommended that the power of the state judge be increased. The conference, which was held at the Hotel Marlborough, was the first of its kind in the state. It was attended by judges from all parts of the state, and its recommendations will be presented to the state legislature.

The conference was organized by Judge John F. Phillips, of the Boston Superior Court. It was held from October 15 to 17, and its members included judges from all parts of the state. The conference was held at the Hotel Marlborough, which is one of the best hotels in the city.

The recommendations of the conference are as follows: That the power of the state judge be increased; that the state judge be given the right to appoint and remove judges of the inferior courts; that the state judge be given the right to appoint and remove judges of the inferior courts; that the state judge be given the right to appoint and remove judges of the inferior courts.

Green Perfects Forward Line for Harvard Clash

DEFENSE IS BEST IN YEARS

DARTMOUTH LINE AGAINST WHICH HARVARD BACKS MAY DASH IN VAIN

By BILL CRIMES
The coming Harvard-Dartmouth clash in the football line will play a major role in the outcome of the game.

Bill Crimes

It is a fact that the Harvard-Dartmouth football game on Saturday will be a clash of the lines. The Harvard backs may dash in vain against the Dartmouth line, which is expected to be one of the best in years.

From the defense, the Harvard line is expected to be one of the best in years. The Dartmouth line is expected to be one of the best in years.

Bill Crimes is a writer for the New York Times. He has written many articles about football.

COLE ON TUFTS FIRST TEAM

Alexander Cole, a member of the Tufts football team, is expected to be a key player in the Harvard-Dartmouth game.

Cole is a senior at Tufts and has been a member of the football team for several years.

He is expected to play a key role in the Harvard-Dartmouth game on Saturday.

THINKS SIGNAL STORY FAKE

With several prominent bets of the Harvard regular, the Harvard line is expected to be one of the best in years.

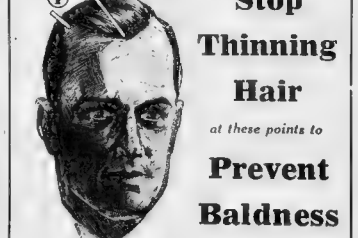

Horween May Scrap Harvard 'A' Team

With several prominent bets of the Harvard regular, the Harvard line is expected to be one of the best in years.

YALE LINEUP IS UNCERTAIN

Yale's lineup for the Harvard-Dartmouth game is uncertain, with several key players expected to be out.

Stop Thinning Hair

NATURE is calling for help when your hair begins to thin at these points, or dandruff-infected, itchy scalp should warn you that your scalp needs immediate attention to prevent further hair loss. Read these positive warnings and have the Thomas correct the scalp disorder that is causing your abnormal hair loss.

Thomas' scalp treatment ends dandruff, stops falling hair, and grows hair—not by old-fashioned but or miss methods—but by the skilled use of modern therapeutic agents. The treatment is scientifically sound in that it supplies the functioning stimulus of which the scalp has been deprived through modern living conditions.

The Thomas' scalp treatment will not accept you for treatment unless they feel reasonably sure that you can obtain satisfactory results. Call at the nearest Thomas' office today, where a skilled trichologist will gladly examine your hair and scalp without charge and frankly tell you what Thomas' treatment can do to help you retain or regain your hair. Remember—the examination is free.

Chicago Cubs Aren't So Unlucky After All

Chicago, Oct. 23 (AP)—Lewis "Fats" Wilson, left centerfielder, has one less worry than he had yesterday. A suit for \$10,000 against the pudgy outfielder, filed by a fan who charged Wilson had assaulted him at Wrigley Field early last summer, has been dismissed.

Edward Young charged Wilson struck him following an exchange of remarks during a game early in the season. Young claimed Jack climbed into a box seat, knocked him down, tore his clothes and blackened both eyes. When the case came up in

Three Indians Listed in D. and E. Lineup

Three Indians will be in the lineup for the Dartmouth football team on Saturday. They are Albert Hawley, center; Simon Turner, guard; and Elmer Smith, fullback. All three went to the Virginia college from Haskell Institute.

Real Dartmouth Indian Is Coming to Stadium

Harvard, N. H., Oct. 23 (NS)—Chief Sowanen of the Ojibwa tribe, a real Indian student at Dartmouth, today was putting the finishing touches on the tribal regalia he will wear on the sidelines at the Harvard-Dartmouth game in Harvard stadium on Saturday.

NEW LOVING TRILL

Still Horween was far from satisfied with the way this eleven went through its paces, and a new combination was worked out. Horween, a former team tackle, was shifted to Capt. Jim Barretto's

Somersets Seek Game

The strong Somerset A of Somerset is looking for a game on Saturday afternoon. The team is expected to play a game with the Harvard-Dartmouth team.

Columbia Regatta Oct. 30

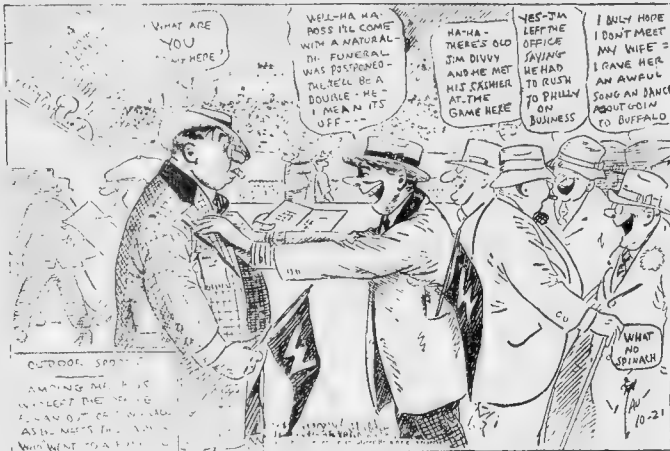

Columbia is expected to host a regatta on October 30. The event is expected to be a major attraction for the school.

The unusual conditions in the automobile market... the competition and the cutting of the prices of new cars... make it possible for you to buy a Good Used Car that retains 80% of its original value for 60% of its purchase price!

"A Used Car Is as Good as the Dealer Who Sells It to You"

Zeramby Says He Will Stop Fuller at Garden

RIVALS EACH
TO TRY FOR
KAYO WIN

JAKE ZERAMBY 19 yrs.

"ANOTHER great crowd"

It was a great crowd that gathered at the Garden for the boxing match between Jake Zeramby and Phil O'Farrell. The fight was a close one, with both men showing great skill and courage. Zeramby, the younger man, was the favorite, but O'Farrell, the experienced fighter, was not to be outdone. The crowd was on its feet throughout the fight, cheering and shouting. In the end, O'Farrell won by a narrow margin, but Zeramby's performance was highly praised.

Each boxer seeks kayo

Both boxers were determined to win by a knockout. Zeramby, who is only 19 years old, has a powerful build and a quick mind. He has been training hard for this fight and is confident of victory. O'Farrell, on the other hand, is a seasoned veteran with many years of experience. He has fought some of the best fighters in the world and has won many titles. The fight was a real test of their skills and endurance.

Diamond Miller Moore

Miller Moore, a well-known boxing promoter, was in the ring during the fight. He was seen talking to both boxers and giving them advice. He is a man of great experience and has helped many fighters reach the top of the sport. His presence in the ring added to the excitement of the event.

This Day in Our History
GENERAL WASHINGTON and his sympathizers abandoned Manhattan Island and retreated to White Plains on October 23, 1776. The war was forced out of New York city by then. Howe's things changed later the whole world knows.

Beauty Expert Tells How and When to Take Them

By MARIA HARRIS
So many women are so anxious to get the best of their complexion that they are inclined to use too much of the beautifying cream. But a beauty expert tells that the best way to get the best of the complexion is to use a little of the beautifying cream and a little of the beautifying powder. The expert says that the beautifying cream should be used at night and the beautifying powder should be used in the morning. The expert says that the beautifying cream should be used at night and the beautifying powder should be used in the morning. The expert says that the beautifying cream should be used at night and the beautifying powder should be used in the morning.

Marianne, 'Disguised' as a French Officer

"Must it be a general, little lady, wouldn't a major do?" asked Mr. Rawson, as the pretty French girl called to see him. Miller answered how the French girl called to see him. Miller answered how the French girl called to see him.

THE WORLD OF FINANCE

CRITICISMS OF RESERVE ARE DISCUSSED

An interesting survey of the reserve policy from the European viewpoint appears in an article by C. C. Chang in the *Financial Review* of London. Chang, who is a member of the London School of Economics, has been one of the recent visitors to the Federal Reserve system in the United States.

The European viewpoint is particularly pertinent, the writer says, because of the fact that the Federal Reserve is the only central bank in the world which is not a government institution. It is, therefore, a subject of interest to the European public.

The writer points out that the Federal Reserve is a private institution, and that it is not subject to the same kind of public scrutiny as a government institution. He also points out that the Federal Reserve is not a government institution, and that it is not subject to the same kind of public scrutiny as a government institution.
